What is DigiTrain®

DigiTrain® is our innovative Trademarked Digital Manual Handling Training Product which qualifies Health & Safety Professionals to **deliver Manual Handling Instructor (Train the Trainer) Courses in-house**. It is the **only product in the UK** of its kind and ensures you **NEVER** have to pay for Manual Handling Training again, freeing up your Health & Safety budget.

Created by Osteopathic Solutions Director & Manual Handling Risk Management Expert Gareth Milner & accredited by The CPD Group, additional DigiTrain® benefits include:

- Removes costs of administration of contracting external companies with **NO additional costs for licenses or subscriptions**
- Upskills Health & Safety Professionals providing Instructor CPD Requalification
- Clear and repeatable message across all of your sites
- Reduces Manual Handling Lost Time Accidents & Injury at Work Claims

Our Infographic Below. Just 5 Days from receiving a large Injury at Work Claim ... ordering DigiTrain® ... & qualifying 6 Instructors

How much can DigiTrain® Save Us over 5 Years?

If you are part of a big UK Group (as DigiTrain® is a USB you can upload all content to your Group Intranet), if for example your Group ran 6 x 2 Day Courses over a 12 month period across your UK sites, that would save your business around **£9600***, not to mention the costs of administration. **In 5 years, that is a saving of £48,000***. All for a fixed 'pocket money' expenditure of £795**.

Plus, **you have a product forever!** There are no product licenses or subscriptions.

**Using Osteopathic Solutions 2 Day Course cost*

***£695 (£100 saving) when you Buy Online via*

Instructor Employee Leaves? No budget? No problem!

How many times have we heard of Businesses spending £1000s on training Manual Handling Instructors & then, a few years pass, or maybe even only 12 months pass ... & they leave.

Back to square one ... Another few £1000s from the limited Health & Safety kitty to train **another** group of Instructors ...

Not with DigiTrain®

With DigiTrain® in your ownership, new **Manual Handling Instructors & Risk Assessors** can be trained up at NO additional cost!

The 'How to Use' Package

Our Occupational Osteopath & Manual Handling Expert travels to your site to show you exactly how to expertly use DigiTrain® over 1 Day.

Although DigiTrain® is a very straightforward product, many of our Clients like to be taken through its content to ensure best usage.

No confusion. 100% product education & understanding. All in just 1 Day.

" Having previously dealt with Osteopathic Solutions, I had no hesitation in looking into their DigiTrain® Product when I found it on LinkedIn. Osteopathic Solutions are a great team with a modern, refreshing outlook who offer a very efficient quick service. I really can't wait to put the DigiTrain® product to use."

Andrew Lazenby
HSE Lead
Tekmar Energy

" DigiTrain® has proved its worth. "

Martin Fish
Head of Health & Safety
Lancashire Fire & Rescue

" DigiTrain® has supported us to do our own in-house Manual Handling Risk Assessments "
